

Mitchell Technical Institute Articulation

Articulation is a cooperative effort between South Dakota's high schools, the Department of Education's Office of Curriculum, Career and Technical Education (OCCTE), and technical institutes. It links high schools with certificate, diploma, and associate degree programs and provides students with an opportunity to receive credit for skills previously learned. The courses listed below in the Architecture & Construction career cluster are currently articulated from OCCTE approved programs to the Agricultural Technology and Architectural Design & Building Construction programs at Mitchell Technical Institute.

Articulation Guidelines

1. The student must have completed the high school course within the last three years.
2. A minimum of a "B" in the course(s) to be articulated is required.
3. Tuition is not charged for the articulated credit(s).
4. Articulated courses will be honored by all post-secondary institutes for those course(s) that have common course names and numbers.
5. If the curriculum of the technical institute course changes, the terms of the agreement may also change.
6. All articulation agreements between secondary schools and the technical institutes reflect only the transfer ability of credit between these agencies and not with state universities.

Architecture & Construction

High School Architecture & Construction Courses

17003 Residential Construction

MTI Agricultural Technology Courses

AG 152 – Building Principles (1 of 1 credit)

High School Architecture & Construction Cluster Courses

21103 Architectural Drafting
21103 Architectural Drafting
17003 Residential Construction
17003 Residential Construction
17007 Cabinetry
21107 Computer Aided Drafting (CAD)
17006 Intro to Architecture & Construction
17006 Intro to Architecture & Construction
21106 Technical Drafting
21106 Technical Drafting

MTI Architectural Design & Building Construction Courses

AD 101 – Principles of Drafting I (1 of 3 credits)
AD 151 – Principles of Drafting Lab I (2 of 4 credits)
BC 121 – Principles of Building Construction I (1 of 5 credits)
BC 151 – Building Construction Lab I (1 of 4 credits)
BC 130 – Cabinetry (1 or 2 credits)
AD 152 – Architectural Drafting Lab II (1 of 4 credits)
BC 121 – Principles of Building Construction I (1 of 5 credits)
BC 151 – Building Construction Lab I (1 of 4 credits)
AD 101 – Principles of Drafting I (1 of 3 credits)
AD 151 – Principles of Drafting Lab I (1 of 4 credits)
