

Mitchell Technical Institute Articulation

Articulation is a cooperative effort between South Dakota's high schools, the Department of Education's Office of Curriculum, Career and Technical Education (OCCTE), and technical institutes. It links high schools with certificate, diploma, and associate degree programs and provides students with an opportunity to receive credit for skills previously learned. The courses listed below in the Business, Management & Administration and Finance career cluster are currently articulated from OCCTE approved programs to the Accounting/Business Management, Culinary Academy of South Dakota, Medical Office Professional, Office Technology Specialist, and Power Sports Technology programs at Mitchell Technical Institute.

Articulation Guidelines

1. To receive articulated credit, the student must have completed the high school course within the last three years.
2. A minimum of a "B" in the course(s) to be articulated is required.
3. Tuition is not charged for the articulated credit(s).
4. Articulated courses will be honored by all post-secondary institutes for those course(s) that have common course names and numbers.
5. If the curriculum of the technical institute course changes, the terms of the agreement may also change.
6. All articulation agreements between secondary schools and the technical institutes reflect only the transfer ability of credit between these agencies and not with state universities.

Business, Management & Administration

High School Business Management & Administration and Finance Cluster Courses

12104 Accounting I
12108 Accounting II
12109 Accounting III
12054 Business Law
