

Mitchell Technical Institute Articulation

Articulation is a cooperative effort between South Dakota's high schools, the Department of Education's Office of Curriculum, Career and Technical Education (OCCTE), and technical institutes. It links high schools with certificate, diploma, and associate degree programs and provides students with an opportunity to receive credit for skills previously learned. The courses listed below in the Transportation, Distribution & Logistics career cluster are currently articulated from OCCTE approved programs to the Power Sports Technology program at Mitchell Technical Institute.

Articulation Guidelines

1. To receive articulated credit, the student must have completed the high school course within the last three years.
2. A minimum of a "B" in the course(s) to be articulated is required.
3. Tuition is not charged for the articulated credit(s).
4. Articulated courses will be honored by all post-secondary institutes for those course(s) that have common course names and numbers.
5. If the curriculum of the technical institute course changes, the terms of the agreement may also change.
6. All articulation agreements between secondary schools and the technical institutes reflect only the transfer ability of credit between these agencies and not with state universities.

Transportation, Distribution & Logistics

High School Transportation, Distribution & Logistics Cluster Courses

20104 General Service Technician Program
20109 Small Engine Mechanics
20109 Small Engine Mechanics
20105 Automotive Electronics
20121 Automotive Engine Performance
20121 Automotive Engine Performance

MTI Power Sports Technology Courses

OPRV 105 – Service Center Fundamentals (1 of 3 credits)
OPRV 124 – ATV & Snowmobile Systems (1 of 2 credits)
OPRV 125 – ATV & Snowmobile Systems (1 of 3 credits)
OPRV 130 – Electrical/Electronic Systems (1 of 2 credits)
OPRV 140 – Multi-Cylinder 2 & 4 Cycle Engines (1 of 2 credits)
OPRV 141 – Multi-Cylinder Engine Lab (1 of 2 credits)
