## **Mitchell Technical Institute Articulation**

Articulation is a cooperative effort between South Dakota's high schools, the Department of Education's Office of Curriculum, Career and Technical Education (OCCTE), and technical institutes. It links high schools with certificate, diploma, and associate degree programs and provides students with an opportunity to receive credit for skills previously learned. The courses listed below in the Arts, Audio/Visual Technology & Communications, Science, Technology, Engineering & Mathematics; and Manufacturing career clusters are currently articulated from OCCTE approved programs to the Utilities Technology program at Mitchell Technical Institute.

### **Articulation Guidelines**

1. To receive articulated credit, the student must have completed the high school course within the last three years.
2. A minimum of a "B" in the course(s) to be articulated is required.
3. Tuition is not charged for the articulated credit(s).
4. Articulated courses will be honored by all post-secondary institutes for those course(s) that have common course names and numbers.
5. If the curriculum of the technical institute course changes, the terms of the agreement may also change.
6. All articulation agreements between secondary schools and the technical institutes reflect only the transfer ability of credit between these agencies and not with state universities.

## ***Utilities Technology***

### **High School Manufacturing Cluster**

#### **Courses**

17106 Electronics  
17106 Electronics  
21009 Mechatronics/Robotics

#### **MTI Utilities Technology Courses**

PL 111 – Characteristics of DC/AC (1 of 4 credits)  
NG 110 – Gas Operations & Maintenance Lab (1 of 4 credits)  
NG 110 – Gas Operations & Maintenance Lab (1 of 4 credits)

### **High School Arts, A/V Technology & Communications Courses**

17106 Electronics  
17106 Electronics

#### **MTI Utilities Technology Courses**

PL 111 – Characteristics of DC/AC (1 of 4 credits)  
NG 110 – Gas Operations & Maintenance Lab (1 of 4 credits)

### **High School Science, Technology, Engineering and Mathematics**

#### **Courses**

17106 Electronics  
17106 Electronics  
21009 Mechatronics/Robotics

#### **MTI Utilities Technology Courses**

PL 111 – Characteristics of DC/AC (1 of 4 credits)  
NG 110 – Gas Operations & Maintenance Lab (1 of 4 credits)  
NG 110 – Gas Operations & Maintenance Lab (1 of 4 credits)

### **Additional High School Courses**

Algebra II/Advanced Algebra  
plus 20+ on ACT Math or  
45+ on COMPASS Algebra or  
25+ on TABE Algebra

#### **MTI General Education Courses**

MATH 101 – Intermediate Algebra (3 of 3 credits)  
MATH 104 – Technical Mathematics (3 of 3 credits)
