## **Mitchell Technical Institute Articulation**

Articulation is a cooperative effort between South Dakota's high schools, the Department of Education's Office of Curriculum, Career and Technical Education (OCCTE), and technical institutes. It links high schools with certificate, diploma, and associate degree programs and provides students with an opportunity to receive credit for skills previously learned. The courses listed below in the Arts, Audio/Visual Technology & Communications, Science, Technology, Engineering & Mathematics; Information Technology and Manufacturing career clusters are currently articulated from OCCTE approved programs to the Wind Turbine Technology program at Mitchell Technical Institute.

### **Articulation Guidelines**

1. To receive articulated credit, the student must have completed the high school course within the last three years.
2. A minimum of a "B" in the course(s) to be articulated is required.
3. Tuition is not charged for the articulated credit(s).
4. Articulated courses will be honored by all post-secondary institutes for those course(s) that have common course names and numbers.
5. If the curriculum of the technical institute course changes, the terms of the agreement may also change.
6. All articulation agreements between secondary schools and the technical institutes reflect only the transfer ability of credit between these agencies and not with state universities.

## ***Wind Turbine Technology***

### **High School Information Technology**

#### **Cluster Courses**

10102 Networking Systems

### **MTI Wind Turbine Technology Courses**

CSS 210 – Intro to Networking (1 of 3 credits)

### **High School Manufacturing Cluster Courses**

17106 Electronics

21009 Mechatronics/Robotics

### **MTI Wind Turbine Technology Courses**

WTT 105 – DC/AC Circuits (1 of 4 credits)

WTT 120 – Industrial Motor Controls (1 of 4 credits)

### **High School Arts, A/V Technology & Communications Courses**

17106 Electronics

### **MTI Wind Turbine Technology Courses**

WTT 105 – DC/AC Circuits (1 of 4 credits)

### **High School Science, Technology, Engineering and Mathematics Courses**

17106 Electronics

21009 Mechatronics/Robotics

### **MTI Wind Turbine Technology Courses**

WTT 105 – DC/AC Circuits (1 of 4 credits)

WTT 120 – Industrial Motor Controls (1 of 4 credits)

### **Additional High School Courses**

Algebra II/Advanced Algebra

plus 20+ on ACT Math or

45+ on COMPASS Algebra or

25+ on TABE Algebra

### **MTI General Education Courses**

MATH 101 – Intermediate Algebra (3 of 3 credits)

MATH 104 – Technical Mathematics (3 of 3 credits)
