

Mitchell Technical Institute

2019-2020 School Costs

Estimated expenses for students attending MTI

Paying for School

Students who attend South Dakota's technical institutes are all charged the same amount for tuition per credit hour. Additionally, some fees are collected by the state for building and technology costs. MTI locally determines fees for programs, student services, certifications, and one-time expenses like laptop computers. Students are also required to purchase the books and tools necessary for each program.

Financial aid can cover some expenses, depending upon a student's eligibility. Otherwise, all costs are the responsibility of the student. Students who enroll need to prepare for some initial expenses at the start of the term. Books, supplies, and tools will be required for all classes. Students may charge the cost of book sat the MTI Bookstore against their financial aid IF the award exceeds the amount due to the school. In order to do this, the financial aid process needs to be completed and the Business office must approve the charge. Please budget accordingly when making your school plans.

Refund Policy for Institutional Costs

Students attending Mitchell Technical Institute who withdraw from all classes before 60% of a semester or term has lapsed are entitled to have a portion of their institutional costs returned to the federal financial aid program that provided the funds. Specifics of the refund policy for Title IV funds and other forms of financial aid are outlined in the MTI Student Handbook. See the Financial Aid office for details.

Estimated Costs for Off-Campus Expenses (For A Nine-Month Academic Year*)
