

2022-2023 College Costs

Estimated expenses for students attending Mitchell Tech

Paying for College

Students who attend South Dakota's technical colleges are all charged the same amount for tuition per credit hour. Additionally, some fees are collected by the state for building and technology costs. Mitchell Tech locally determines fees for programs, student services, certifications, and one-time expenses like laptop computers. Students are also required to purchase the books and tools necessary for each program.

Financial aid can cover some expenses, depending upon a student's eligibility. Otherwise, all costs are the responsibility of the student. Students who enroll need to prepare for some initial expenses at the start of the term. Students are required to purchase designated books, supplies, tools and uniforms as assigned by the instructor in each course. Most programs specify tools and/or uniforms that are characteristic of the occupation for which

the student is enrolled. Students should purchase required books through the online bookstore. Students may purchase tools from a separate online vendor. Supplies, school theme items and gift certificates are available in The Campus Store located in the Campus Center. Please budget accordingly when making your school plans.

Refund Policy for Institutional Costs

Students attending Mitchell Technical College who withdraw from all classes before 60% of a semester or term has lapsed are entitled to have a portion of their institutional costs returned to the federal financial aid program that provided the funds. Specifics of the refund policy for Title IV funds and other forms of financial aid are outlined in the Mitchell Tech Catalog and Student Handbook. See the Financial Aid office for details.
