# Graduation

## FRIDAY, MAY 8

## Mitchell Technical Institute

MTI President Mark Wilson

## From the President

As a career educator, I have spent many a spring day on a graduation stage, watching a group of eager students receive their diplomas and depart the venue well prepared for whatever comes next.

2020 will be a “graduation” I will always remember, because it’s the one where an eager group of students is ready to depart for whatever comes next...without the ceremony or sharing physical space.

When each of you entered MTI, you could imagine this day, celebrating the way we have been conditioned: with caps and gowns, an overheated auditorium crowded with people, uncomfortable shoes, and too much smiling for the camera. However I know that each one of you would gladly welcome that tried and true ceremony if it meant that for a couple of hours, you could be in the company of friends, family, classmate and instructors.

I don’t have a crystal ball to tell me where you will end up. I do know that wherever you go, whatever opportunities life presents, whatever challenges you encounter, you will be ready because of the time you spent at Mitchell Tech. You have mastered technical skills and abilities; that is proven by the receipt of your diploma. But you may not even think about the life skills and abilities that your education has prepared you for: collaboration, work ethic, adaptability, resilience, drive, courage, perseverance, hope.

My make-believe crystal ball does inform me that you will go on to achieve many things: careers, families, homes, community service, leadership and others too numerous to mention. I hope you remember your time at MTI as well spent and you will cherish the relationships that you made.

I also want to thank Mitchell Tech’s amazing faculty and staff for helping to provide you with the very best technical education. This dedicated group has worked tirelessly to ensure that instruction continued through unseen challenges. If ever you have the chance, please stop in to campus to visit, tell your new life story to your instructors and let them know what their efforts have meant to you.

And at the end of the day, if we were together, this is the moment I would tell you to go forth into the world, celebrate your achievement and display your pride that you are a member of the Mitchell Technical Institute Class of 2020!

*Mark Wilson became the fifth president of Mitchell Technical Institute in 2015. Prior to his arrival in Mitchell, he served as president of Western Dakota Technical Institute and was the state director of the Office of Career Learning and Instruction for the state of South Dakota. Wilson holds a Master’s degree from the University of North Dakota and a Bachelor of Science degree in education from Valley City State University.*

# Graduation Speaker

Dear Graduates of the Mitchell Technical Institute  
Class of 2020:

It is said that the ancient Chinese had a rather odd curse they would offer to their enemies: “May you live in interesting times.” It is neither Chinese—it was apparently first voiced by a British statesman in the 1930’s—nor a curse.

But the latter part of that assertion is less objective than the first. There certainly are people who genuinely enjoy placid lives. Early to bed, early to rise, a regimented schedule, and nothing at all to disturb their quiet. All that sort of thing.

To me, though, such life is only half-lived. Who remembers a quiet day? What we remember, what fill our memoirs, are those days—incidents really—which challenge us, force us to adapt, bring out the best in us by throwing an existential gauntlet at our feet.

At least I hope ‘interesting times’ are not a curse, for 2020 MTI graduate, you have certainly had such times. You are, for example, the final class ever to graduate from Mitchell Technical Institute. Next year, our students will graduate from Mitchell Technical College. But like Creighton University which argues it hasn’t lost a football game since the 1940’s (that’s when they dropped their football program), you can argue with truistic veracity that your class out-classed, out-hustled, and out-achieved every MTI class that came after it. Forever.

Additionally, of course, you are also the Class which had to complete its studies, almost two months before its scheduled end, virtually. The coronavirus saw to that. But you and your instructors also saw to something—you and they saw to finding a way to master the necessary skills, frequently very much hands-on skills, in a virtual environment.

Are there challenges ahead? Naturally. But the curse, better yet the blessing, of interesting times has prepared you extraordinarily well for all of that, as perhaps nothing else could.

Congratulations and seize the day!

*Dr. Joe Graves is the Superintendent of Mitchell Public Schools, a position he has held since 2000. A native of Sioux Falls, he attended South Dakota State University for his undergraduate degree and did graduate work at Georgetown University, the University of Iowa, and Drake University where he received a doctorate in education. Dr. Graves was invited to serve as MTI’s graduation speaker for 2020.*

# Student Body President

Hello Class of 2020!

I first want to say congratulations to each and every graduate. I know this year has been a bit of a rollercoaster with the transition of our daily lives taking us from being in class face-to-face, to being in class at home.

Lane Wesseling

There have been many challenges that have come with the pandemic, but also there is so much strength in each of us that will allow us to get through this together. There will be many more challenges that show themselves in our lives and we will overcome them just as we are overcoming this one. Not many, if any, will be able to say that they went through what we have gone through.

The best thing that you can do right now is keep your chin up and go through each and every day with a positive attitude. This will all be over soon and when that time comes, we can finally go back to normal and hang out with our friends again and then look back on this year as the year that will go down in history.

My wish for you is that you can celebrate your accomplishments once our lives are back to normal. From the Student Representative Board and from me, your classmate, we wish you all the best in your future endeavors and that life treats you kindly. Most importantly, congratulations!

*Lane Wesseling has served as a member of the MTI Student Representative Board for two years and was elected as Student Body President for the 2019-2020 school year. Wesseling is a Plankinton native and is graduating with his Associate of Applied Science degree with honors in Business Management.*
