Commencement Speaker

Tyanna Walette

Tyanna Walette is a graduate of Mitchell Tech's Human Services Technician program. Tyanna enjoys spending time with family, which includes her daughter, foster daughter, stepson, and fiancé. Other activities that interest Tyanna are hiking, traveling, and camping. Tyanna chose Mitchell Technical College because she believed it fit her needs and provided more opportunities. Tyanna's future plans include spending a few years in the workforce and then obtaining her bachelor's degree. Advice Tyanna would like to offer the graduating class is, "Don't let fear distract you from taking risks. Go for it. Don't be afraid to fail, grow, overcome."

Austin Bartelt

Austin Bartelt is a graduate of both Mitchell Tech's Agricultural Business and Agronomy programs. Activities that interest Austin are hanging out with his family which includes parents, Jarren and Jen, and siblings, Evan and Elyssa. He also enjoys spending time with friends, farming, sports, hunting and checking cows. Austin chose Mitchell Tech because it was close to home and he felt the teachers were down-to-earth and easy to work with. He also found value in attending a two-year college versus a four-year university. Austin's future plans are to find a full-time job in an agriculture related company and sell bulls for Bartelt Angus. Advice Austin would like to offer the graduating class is, "Take everything one day at a time and live in the moment."

KayLee Pearson

KayLee Pearson is a graduate of Mitchell Tech's Power Line Construction & Maintenance program. Activities that interest KayLee are family time, which includes parents, Don and SanDee, and daughter, Trinity. Other activities KayLee enjoys include camping and welding. KayLee chose Mitchell Tech after everyone she spoke with told her that MTC really is the best. The location of MTC allowed her to be close enough to go back to Rapid City on weekends to see her family. KayLee's future plans are to choose a good job, build a home on her family's ranch and create a life that she is proud of. She may even talk her daughter into becoming a lineman, too. Advice KayLee would like to share with the graduating class is, "In order to do the big things right, you must be willing to do the small things right. Work as a team because you are your brother's keeper."

Associate of Applied Science: a two-year degree with technical and general education coursework to promote entry into a specific career.

Diploma: a one-year achievement demonstrating completion of a field-specific course of study for entry into the workforce.
